I am an aspiring web developer with a solid foundation in web technologies and a focus on continuous learning. Proficient in HTML, CSS, and JavaScript. Skilled in creating responsive and visually appealing websites. I am familiar with Python and experienced in utilizing web development frameworks such as Django and Flask. Completed relevant courses in web development, including Python for financial analysis and algorithmic trading. Fluent in Hindi, Telugu, and English with a passion for problem-solving and staying updated with the latest web development trends. I am eager to apply my skills and expand my expertise in Python, Django, and Flask while contributing to dynamic web development projects.

Skills

- Programming Languages: Python, HTML, CSS, JavaScript
- Frameworks: Django, Flask
- Libraries and Tools: NumPy, Pandas, Tkinter, Turtle, Matplotlib
- Web Development: HTML5, CSS3, JavaScript, Responsive Design
- Data Visualization: Tableau, Matplotlib

Experience

Company: Kellton

Duration: Present - 3 months (Ongoing)

Designation: Trainee Software Development

Description:

- I am actively involved in various projects as a developer, primarily focusing on the creation of web applications on a specific platform.
- Proficient in generating HTML reports utilizing HTML, CSS, and Velocity scripting.
- Skilled in scripting JavaScript to manage and control web application functionalities.
- Experienced in establishing data flow connections through API methods, including GET, GET list, PUT, and POST, leveraging JSON arrays for efficient data handling.

Education

- **Secondary School Certificate**

Location: Hyderabad, Telangana

Year of Completion: 2018

- **Intermediate with Computer Science Subject**

Location: Hyderabad, Telangana Year of Completion: 2020

- **Advanced Diploma in Web Designing**

Geeni Computer Education

Location: Hyderabad, Telangana

Duration: January 2019 - June 2019

- **Bachelor of Commerce (Computer Application)**

Location: Hyderabad, Telangana

Year of Completion: 2023

Additional Achievements during Graduation:

- 2nd Prize in the PPT Presentation Competition on Cyber Security held during the National Science Day celebration at Government Degree College, Khairtabad
- Participated in the state-level competition "Jignasa - Student Study Projects" during the final year of graduation, showcasing the project "LMS (Library Management System)"

Projects:

- **Library Management System (LMS)**

Description: Developed a desktop-based library management system using Python's Tkinter library for the user interface and SQLite3 for the database.

Role: Sole developer, responsible for the entire project, including system architecture, database design, and implementation.

Technologies Used: Python, Tkinter, SQLite3.

Achievements: Successfully implemented an intuitive user interface, streamlined book management processes, and improved overall efficiency of the library.

- **Personal Portfolio Website**

Description: Designed and developed a responsive personal portfolio website using HTML, CSS, and JavaScript.

Role: Sole developer, responsible for all aspects of design and implementation.

Technologies Used: HTML, CSS, JavaScript.

Achievements: Created an appealing and user-friendly design, implemented smooth navigation and interactive features, and optimized the website for various devices.

- **E-commerce Website**

Description: Developed an e-commerce website for a client using Python's Django framework, along with HTML, CSS, JavaScript, and Bootstrap.

Role: Sole developer, responsible for front-end and back-end development.

Technologies Used: Python, Django, HTML, CSS, JavaScript, Bootstrap.

Achievements: Successfully launched the website, ensuring seamless user experience, secure transactions, and efficient product management.

- **Capstone Blog Project**

Description: Developed a web-based blog application using Python's Flask framework, along with HTML, CSS, JavaScript, and Bootstrap.

Role: Sole developer, responsible for the design and implementation of the entire blog application.

Technologies Used: Python, Flask, HTML, CSS, JavaScript, Bootstrap.

Achievements: Created an interactive and visually appealing blog platform, allowing users to create and share their blog posts, engage in discussions through comments, and personalize their profiles.

Certification and Training:

Junior Software Developer

National Institute for Micro, Small and Medium Enterprises

Location: Hyderabad, Telangana

Duration: July 2023 – October 2023

Advanced Diploma in Web Designing
Geeni Computer Education
Location: Hyderabad, Telangana
Duration: January 2019 - June 2019

100 Days of Code - The Complete Python Pro Bootcamp
Udemy
Year of Completion: 2022

Tableau Certification Course
Udemy
Year of Completion: 2022

Python for Financial Analysis and Algorithmic Trading
Udemy
Year of Completion: 2022

The Complete 2023 Web Development Bootcamp
Udemy
Year of Completion: 2023

Technical Proficiencies:

- Programming Languages: Python, HTML, CSS, JavaScript
- Web Frameworks: Django, Flask
- Front-end Technologies: HTML5, CSS3, JavaScript
- Data Analysis and Visualization: NumPy, Pandas, Tableau, Matplotlib
- Version Control: Git
- Responsive Design

Additional Information:

- Languages: Hindi, Telugu, English
- Interests: Teaching programming, playing kabaddi, learning new programming skills, going to the gym
- Awards:
 - 2nd Prize in PPT Presentation Competition on Cyber Security at Government Degree College, Khairatabad
 - Participation in the state-level competition "Jignasa - Student Study Projects" with the project "LMS (Library Management System)"
